## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-20 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 1, "an auxiliary electrode disposed on the moving-film between the fixed end and the movable end, a scanning electrode disposed on the counter face to face the auxiliary electrode on the fixed end side; a holding electrode disposed on the counter face to face the auxiliary electrode on the movable end side". In claim 11, "a first electrode disposed on the cantilever between the fixed end and the free end; a second electrode disposed stationary to face the first electrode on the fixed end side; a third electrode disposed stationary to face the first electrode on the free end side, distance between the first and third electrodes being larger than the distance between the first and second electrodes". The closest prior art Sugahara et al. (6,239,777) discloses an actuatable film display device having fixed electrodes on both sides of the movable electrode film, however singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
